60-120 Hours**

21st Century Automotive Career Training LLC is working in conjunction with The Ding King to create Automotive Learning Labs and develop Blended Learning Courses that provide career readiness options for high school students interested in an in-demand skilled automotive trade. Our courses are also applicable for adults and youthful offenders and will be mapped to Florida State Career Option Standards. Each of our programs includes Teacher Training, Tool Packages, Customized Learning Lab, Online Learning Portal, Instructor Guides and Student Materials. The first three courses introduced are: Painless Dent Repair, Glue Pulling and Hail Repair. Graduates will receive certification upon successful completion of the program and will be ready for internships and full time employment opportunities and can choose to operate their own business or be eligible for jobs paying \$30k to \$120K per year.
